Sending a test signal

Make sure all protected windows & doors are closed. You should have a green "ready" light on the keypad. Open a protected window. The system will call the monitoring center and when they receive your test signal, a central station operator will call you. Have your codeword ready. If you don't get a call within a minute or so call central station at 718 494-6414. To clear the alarm from the keypad, enter your code + off
